

- Owner belongs to a family
- an owner is also a game player
- Games have a name, a minimum & maximum number of players
- an owner knows how many games he has
- a family knows how many members it has.
- A game can be owned by multiple owners
- an owner can own multiple games, even multiple of the same game.
- A game player has a name & can play games
- A game played knows when it was played, what game it is, & who won & their score if applicable
- Some how we need to know what games players played any game played
